

CARPORT

MODULAR

PROTECT YOUR CAR

ADVANTAGES

DUST - less for sure

SUNLIGHT - no more hot car

HAIL - you just said you love your car

SNOW - you quite escaped that burden

Technical description

Galvanized steel structure, designed to withstand snow loads of 125kg./sqm. and wind loads of 150km./h.

The structures polls of 70x70mm are designed to be installed on concrete with specific anchors.

Cover: - Option 1: polycarbonate, 6mm thickness, clear

- Option 2: corugated steel sheet, galvanized, 0,5mm thickness, polyester coated.

Colors available: grey (RAL 7024), red (RAL 3011), brown (RAL 8019) or any RAL (personalised offer)

Dimensions

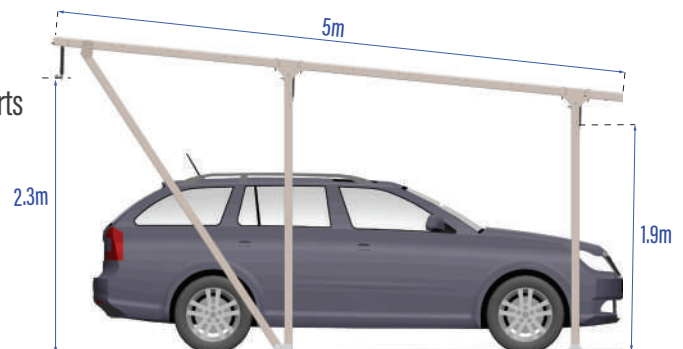

Acording to the specifics of your car or of your parking spot, the carports are of 2 types: **single** - for one car & **modular** for 2 cars.

We manufacture carports for 3 types of widths:

- 2.50m width/car (Carport single: 2.50m; modular: 5.00m)

- 2.75m width/car (Carport single: 2.75m; modular: 5.50m)

- 3.00m width/car (Carport single: 3.00m; modular: 6.00m)
